

The West GTA Stroke Network Presents: Provincial Stroke Rounds

Dr. Andrew Micieli MD, MMI, FRCPC, FCSC-E

*Stroke neurologist and neurohospitalist
Trillium Health Partners – Mississauga
Hospital*

Review of Artificial Intelligence in the Diagnosis and Management of Stroke Patients Across the Province

Wednesday February 5th, 2025, **0830-0930h EST***

***note new time**

Objectives: Upon completion participants will:

1. Gain a comprehensive understanding of how AI technologies are currently being utilized in the diagnosis and management of stroke patients, and its potential use in the near future
2. Learn strategies to improve interdisciplinary communication and collaboration, leveraging AI tools to enhance patient outcomes and streamline workflows across different healthcare roles
3. Be equipped with practical knowledge on integrating AI-driven protocols into their clinical practice, focusing on case studies and real-world applications that highlight the impact of AI on patient care and decision-making processes
