

The Toronto Stroke Networks Present:

# Provincial Stroke Rounds

## Dr. Vitor Mendes Pereira, MD, M.Sc

Director of Endovascular Research and Innovation  
Schroeder Chair in Advanced Neurovascular Interventions  
Lead Scientist, RADIS lab, Li Ka Shing Knowledge Institute Division of Neurosurgery  
Department of Surgery, St. Michael's Hospital, Unity Health Toronto  
Professor of Surgery and Medical Imaging, University of Toronto

## Robotic Endovascular Neurosurgery and Potential for Remote Robotic Stroke Treatment

**April 6, 2022, 0800-0900h**

**Objectives:** Upon completion, participants will be able to:

1. Describe the use of robotic neuro intervention.
2. Understand the evidence supporting the use of robotic Interventions for implementing EVT in stroke.
3. Appreciate the potential benefits of using robotics in EVT stroke treatment and the possibility of remote intervention.
