Building Awareness: Helping Kids Understand Stroke and Aphasia

Wednesday June 4th, 2025, **0830-0930h EST***

Objectives:

1. Explore the unique challenges faced by individuals with acquired communication disorders and their families.
2. Assess the role of provincial stroke services and networks in supporting families, particularly children, affected by stroke and aphasia.
3. Identify effective resources and strategies to support children and families navigating communication disorders.
4. Understand the importance of a multidisciplinary approach when working with families.
