Presented by:

Tracey Palmer
RN, CRRN BA Sexology

Mackenzie Barber
Physiotherapist, Community Stroke Rehabilitation Program, Home and Community Care Support Services Champlain

Anik Laneville
Best Practice Occupational Therapist, Champlain Regional Stroke Network

Learning Objectives:

1. To describe the Canadian Stroke Best practice recommendations related to Intimacy and sexuality
2. To identify resources for use in patient and family education related to intimacy and sexuality
3. To apply strategies that can be used in clinical practice to facilitate conversations on intimacy and sexuality

This event is generously supported through Ontario Health. Priority registration will be given to regulated healthcare providers working with stroke survivors in the Champlain region.
